Fire extinguishers on each boom lift

HAZARDS & CONTROLS:

- Scaffold use, boom lifts, and scissor lifts in active zones
- Power washing and painting with controlled spray systems
- Back rolling to minimize overspray
- Wind conditions monitored daily
- Vehicle and pedestrian protection as needed

PPE (Personal Protective Equipment) REQUIREMENTS:

- Yellow Hamanaka shirts or hi-vis vests
- Hard hats, gloves, eye protection as required
- Respirators (3M 6801 equivalent) for spray tasks
- Fit testing records maintained in BambooHR

WORKSITE SAFETY PRACTICES:

- Tailgate meetings every Monday using Safety Meeting App
- Walk-through scaffold with signage at ADA-compliant southeast entry
- Controlled traffic flow: south exit = entrance, north entrance = exit
- Do not engage workers during active tasks
- Notify Coast Central rep if near HVAC intakes
- Workers tied off when accessing roofs or ledges
